Panthers Instructional Technology

A student-run tech support team at HHS

We are looking for students to launch a new tech support team!

⭐ Girls and Boys, Grades 9-12

⭐ Meet during DSB, to expand into before/after school

⭐ Tech troubleshooting, equipment repair, teacher support, blogging

⭐ No experience required - just a willingness to be trained and a desire to help people

Help lead the team as it gets started!

Listen to morning announcements in March for an Informational Meeting, or see Mr. Reeve with questions!
